

Hulk®

Hulk Slim Cast

Benefits:

- Secures & protects ESP cables
- Engineered to take a beating
- Built to withstand tremendous impacts without shattering
- Beveled shape to reduce snagging and deflect load
- Installation ease with no loose parts to drop downhole
- Grips tubing to prevent rotation
- Notched to fit over coupling; avoids sliding and promotes proper installation
- Replaces banding near joints
- Eliminates cleanouts for bands
- Built for multiple reruns
- Refurbishment and warehousing/distribution services provided by OTS

Applications:

- ESP cable protection
 - Deviated or inclined wells
- Unconventional horizontals – high DLS and tangents
- Chemical treatment with cap tube
- Protects gauge line

Features:

- Premium annealed ductile iron
- Heavy-duty cable guard with dual capillary tube channels
- Shifts tubing string away from casing
- Captive Class 10.9 bolts (Grade 8)
- No-slip grip, knurling inside clamp arms
 - Improved rotational and axial grip
- Single assembly design
 - Robust
 - Captive components
 - No loose parts

Specifications

- Compatible with 5 ½" casing
- Accommodates #2 and #4 flat ESP cables
- Two cap string channels built to accommodate
 - ¼", ⅜", ½"
