

# SiO<sub>2</sub> Slayer™

ULTIMATE SAND AND SOLID SEPARATING SOLUTION

## Features

- Patented separation technology
- One size fits all flow range
- Rotational action decreases installation time
- Stainless steel – hardened internal components
- Corrosion resistant coating
- Vortex solids separation action will not impinge against the housing for worry free operation

## Technical Specifications

Tool Size  
4.00"

Flow Rates  
Up to 5,000 bpd

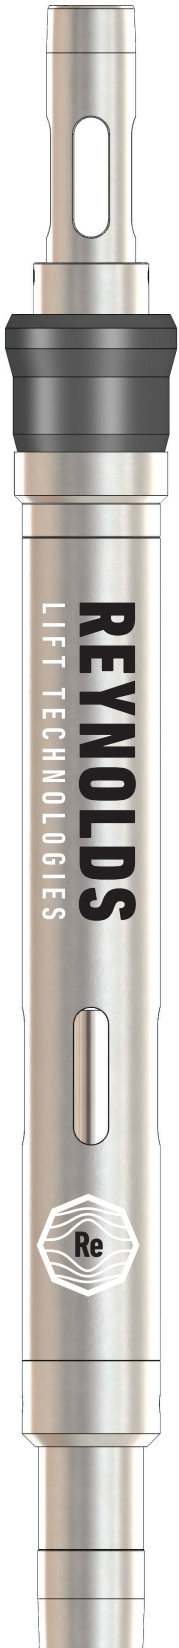

Casing Size  
5-1/2" or 7"

**ALL SIZES  
ALWAYS IN STOCK**

- Operates up to 5,000 bpd
- Separating efficiencies tested up to 85%
- Minimal pressure drop across tool throughout flow range
- Fits most applications and swappable cup packers make fitting different casing sizes simple
